There is no Substitute for Quality

Automobile budies, like houses, may be either strong, sturdy and durable, or light, flimsy and weak. Like houses, good bodies are expensive, and makeshifts are cheap. Prices influence sales of automobiles, as they do of houses, but highest quality and lowest price are possible in neither.

There is no substitute for quality.

To cheapen quality of materials, construction and finish is not Studebuker policy. A makeshift product is fatal to permanent success. Studebaker bodies are built to withstand for meny years the exposure and use to which an automobile is subjected. Better bodies are not built by any manufacturer nor borne by any chassis. Studebaker's reputation is at stake in body building.

Studebaker body plants at South Bend, Indiana, alone contain 2,700,000 square feet of floor space, represent the investment of \$7,000,000, employ 5,000 people, and are the largest body plants owned and operated by any individual manufacturer in the industry. They are, we believe, as experienced and as competent to build good hodies at min mum costs as any plants in existence. Eugers of Studebaker cars get the benefit of this

investment, experience and economy. The broad principle upon which Studebaker business has prospered for seventy-one years, and upon which it is now conducted, insures satisfaction to everybody who deals with the House of Studebaker.

The name STUDEBAKER is your best protection, as it is our greatest asset.

Who Said "Prunes"? Special This Week Only

Just received a large carload Fancy Del Monte 40'50 Prunes. These prunes were grown in the famous Santa Clara Valley of California, a section noted for its production of the very best prones. This valley, being near the coast and entirely surrounded by mountain ranges, has a more uniform temperature than other sections, which is more favorable for growing and curing prunes than anywhere else.

These prunes were carefully selected at a stage when the sugar content was fully developed, were slowly sun-dried, being protected from dust during the process, and then packed.

Special Prices for This Week Only: Del Monte 40 50 Prunes, lb. - - - - 18c Del Monte 40'50 Prunes, 10 lbs. - \$1.75 Del Monte 40 50 Prunes, 25 lb. box \$4.20

Prunes vary in size from 20 30s to 110/120s—the higher the number the smaller the prune. The more common sizes are 50 60s and 60 70s. Del Monte 40,50s must not be confused with the small, cheap prunes of inferior flavor so often advertised.

ATLANTIC WARS AGAINST COAST

Hundreds of Acres Annually Lost in Never-Ending Conflict.

JERSEY COAST SUFFERS MOST

and Worth Millions of Dollacs work on the thumb; Begusse it this.

Weshed Away on the Coast of New
Jersey-Whole Enstern Shore Line
of America Constantin Being Encroached Upon by Cocan Waves—
they work chiled "thumb-bells."

After a lime, however, some cleved
parson from they begund he used,
croached Upon by Cocan Waves—
they should ever have been were and Compensating Areas Sometimes they should ever have been worn any Congenerating Areas Sometimes Suit Up as Evidence Land is Not other way.

The first—and often the only thing-Enatily Conquered.

The washing away by the sen of land worth millions of dollars on the coast of New Jersey, pointed to re-cently in the annual report of the di-rector of the United States coast and goodstle survey, draws attenton to the battle waged year in and year out between see and land along the entire longth of America's castern shore

"The truth is that see and land bave been foces since the beginning of time." says a bulletin on the same subject issued from the Washington

(D. C.) headquarters of the National Geographic society:

"According to the drams of some physiographers, there old anemies will remain such intil the last mountain pinnacle has been washed down and ground to sand, and the victorious ocean rolls unbroken around the world. But whatever may be the outcome millions of years in the future.
we are now in an era of give and
take Many acres—even square miles -of land are lost unnually; but com-

pensating areas are built up at other places."

Continuing, the builtein quotes as tollows from a communication to the society by John Oliver La Gorce describing the "action", in portions of the Atlantic sector where the never-ending conflict enges, most furiously: Waves Undermine Nantucket's Cliffs:

"Looking southward across the eastorn entrance to Nantucket sound, one sights Nantucket island to the dis-tance. On the south side of this island the retrest of the cilifs is often

"Further to the west lies Martha's Vineyard, also an outpost of the land. Here there are rearing ramparts of rock a hundred feet high, but even they cannot entirely withstand the in-cessuat attacks of the indomitable sea. "To the southwest of Murtha's Vine yard lies the desolate Island of No-Man's Land, which is well worthy

the name it bears. Gradually the set is tearing away its vitals, and it is predicted that by the end of the present contury it will disappear beneath

the waves forever.

"On the south coast of Long island we find beaches and shifting sands. Here we get into more haparin terri-tory, for the hand always has an up-building Oliver for every down-tearing Rainnd the sen may have to offer. From Shinnocock bay to Fira island a rampart of sand some forty. miles long has been thrown forward off the real shoreline, and the sea, pounding against this in its maddest fury, encounters a buffer that throws it back a helpless and exhausted foe. Moreover, the sea is compelled to sur-render captive sands taken up elsewhere, and these are re-equipped and put into the front trenches of the island's south-there decenses.

"On the Jersey coast Sandy Hook withhe out as an advance guard of the forces of the land, determined to cut through the line of communica-

Ragitan hay satient. Maritan nay which:
"When there is a deeply indented iceast-line, the ocean currents paralleling the shores refuse to follow the Striking deeper water, they slow up and deliver from hondage the captive grains of sand which momentum has emabled them to carry along. "Heentually these grains grow into a high submarine ridge, which holds

up the ourasting waves and forces them to give up a sand toll as they

Sand Barriers's Protection. "The Jersey coast is full of classic examples of the war between the land and the sea.

"At Long Branch one may watch the shifting fortunes of the bettle. Here, in aptic of the most elaborate: witten of brenkwaters man had erecta aystem of breakwaters man has erecti-ed, the shore-line is being led captive inch by inch. But the prisoner sand does not remain in captivity. As it is being exceited hard of the lines it-hales a successful dark for liberty, and resolves other fand units must and fought of Long Branch and along the south of Long Branch and aids in a counter-attack in those neighborhoods. "In the vicinity of Athanic City the

son is ever striving to gain a foothold; but at present the heat it can do is to force a shifting of land reserves. from one side of a salion to ancing. "It the sea in its warfare against the land sometimes rules a haven of refuge, at other times it is compelled retige, at other times if is compelled by the land to create such a haven. On the Moryland-Virginia shore lies the long, berrier-life leisand of Assa. tentue, Once the scaward southern point of this island was only a bare lip. Gradually, however, the land began to force the sea to give it sand, with this it has built a fine hook bahind which many a marinor, seeks safety from the force nor easters that sweep these coasts." ewesp these cousts."

Human Brain During Steep. 1 Most authorities appear to be agreed that during sleep there is a seamed amount of blood in the reals. This to why excitoment pre-rents sleep, or hard thinking, for ther there is a greater flow of blood to the brain. This was proved in an; atteresting manner by Mosso, who misnesd a man on a scale and showed that the head end would become de present when the man was made to him; or was subjected to excitement, knowledge helps in the treat-

HOW TO SAVE MONEY WHEN SHOPPING

By MRS. HARLAND H. ALLEN

ප්රත්තාසුය දැරීදු වර්ගත්ත අතර අතර දැරිම්ම THIMBLE, THIMBLE, WHO'S GOT THE THIMBLE

It seems tunny doesn't it that thirding were deer made of leather, and that they were first meant to be

that a woman thinks about when she goes to buy a thimble, is the size, Now, the size is important, for the comfort, and much of the speed with which you are ahiagto dispatch your sewing, depends upon the size of the thimble you wear. valways buy one. that is large enough to allow the end of the finger to strike the end of the thimble. The size is indicated by a number placed on the thimble. They come in eleven sizes, Nos. 2 to 12 The sizes for children run from 2 to

But the satisfaction and service that you are going to get out of a thimble depends upon the material from which

Where you want a good, strong, heavy thimble, it is best to got a steel one. It is a good idea to get one that is plated inside with brass to prevent rusting. Steel and aluminum are the lowest-priced thimbles.

Aluminum thimbles are satisfactory. but they are extremely light." For that reason, though, they are especially; good for children

Cellulold makes a good thimble, and is expensive. They are somewhat clumey to handle, but it neatly on the

finger.
The disadvantage of silvered thimbles is that they are very apt to tar-German, silver .give addistactory serv-

ice. Sterling silver thimbles are ex-tremely satisfactory, but those, of course, cast more. In buying inexpensive thimbies, always examine their carefully for any rough places. Thimbles also become rough from much wear, and should then be discarded at once, or they will

catch and pull the threads in the ma-terial that you are sewing.

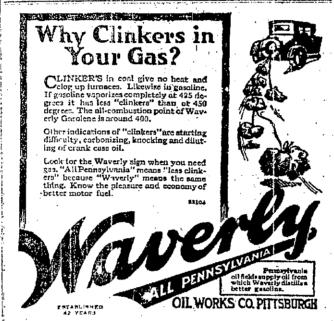

Do you know that there are finger shields made to be worn on the first diager of the left hand to protect it. from the prickings of the needle? These are made either of rubber or celluloid, and are adjustable so as to

"Oh, you, so I was, in the past,"
And this is the way that it happened.
I once had my los in a cast."

RECEUITS STAR IN OWN LEAGUE

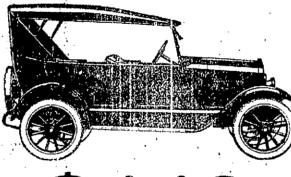

High natting percentages were made in 1922 by three Pacific Coast Baseball league stars, William Kamm, Jimmy O'Connell and Sam Hale, who go to ball league gars, which kinds along the majors being gard, and the majors bert spring, at high sale prices. Kamm, San Francisco third base, man, led his club with an average of .842. He was seventh among the league litters. Kamm was sold to the Chicago White Sox for \$100,000 cash and players worth \$20,000, the highest price ever paid for a minor leaguer. Hade, Portland third series, who goes to the Philadelphia Athletics for \$75,000 cash and players, was third among the league hitters with a percentage of .858. O'Company of the price of the pric nell, San Francisco outfleder, who was sold to the New York Ginats for \$75,000, was teach on the list with an average of \$85. The photograph shows, left to right, Wille Kanim, Samuy Hale and Jimmy O'Connell.

Star Touring Car

The Star Touring Car

THE STAR Touring Car has a well proportioned true streamline body, with rounded radiator and cowl . level with the hood. A one-man, clear-vision top, tilted windshield and crowned fenders add to the smart appearance of the whole,

There is emple capacity for live passengers with plenty of leg room. The seats are low and deep with backs tilted at a comfortable angle and covered with high grade material Gearshift and emergency brake levers are close to the center of the driver's seat, affording free

clutch and service brake pedals; foot accelerator and starter buttons are all in convenient positions. Spark control and auxiliary gas lever are located on the inscrument board, together with ammeter and oil gauge, ignition and lighting switches.

The steering wheel is full 16-inch size set at a most comfortable angle with the horn button on top.

The windshield is adjustable both ton and bottom and has spug rubber weather extensions. There is a wide rectangular glass window in the rear. Under the front seat are side curtains easy to put

The gasoline tank is on the rear of the frame where alling will not inco 'enlence the driver or muss the car.

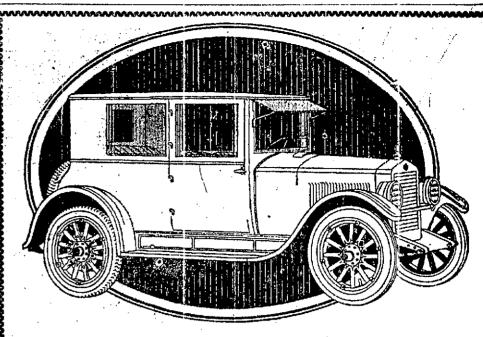

Complete lamp equipment, approved headlight lenses, tail light, tire oarrier and license holder are standard equip-

Come See the Value of the Essex Coach

It May Save You Hundreds of Dollars

Experienced buyers demand more in a motor car than accessories.

In many moderate priced closed cars, however, such things as dome lights, cigar lighters, clocks, etc., are featured as against the more important quality of performance, reliability and reduced maintenance expense.

Come, make a close examination of the Essex Coach. That will show its real utility and chassis quality.

Then you will appreciate what is most important when service is considered. And you will know that the chassis that carries a closed body is always the most important part of the car.

You want more than the fittings in the body. They are nice to have, but don't

sacrifice car quality to get them. Don't accept a less able chassis, just because the body has an accessory you like when its cost is taken out of the motor, or other essential mechanical parts.

The Essex Coach provides every closed carcomfort. It is reliable, and convenient. It has all the details that count most for utility. Thousands are in service. And yet it is mounted on an Essex chassis that is better in every way than earlier models that established farnous records.

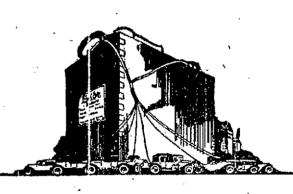

A closed car offers advantages you will like. But don't let the extras over-weigh the construction of the body or the character of the chassis.

Come see this Essex Coach. It is more than important if you are considering your first closed car.

PATRONIZE THOSE WHO ADVERTISE

Is YOUR HOUSE wired for Electricity? If not, thought it be up-to-date in all other respects, you are missing one of the greatest comforts of life.

Besides being the accepted standard for lighting to-day ELECTRICITY performs in an inexpensive, speedy way the work which used to be endless, backbreaking drudgery. Imagine the freedom from cares and worry enjoyed by the woman with an Electric Home! To her, washing is mere child's play-her ELECTRIC WASHING MACHINE takes all the slavery out of wash-day. Her long hours of laborious work with the broom are shortened and lightened as if by magic when she has an ELECTRIC VACUUM SWEEPER. Dirt and germs have no place in the Electrified Home—they are gathered into one large bag, instead of being scattered all over the house by the old fashioned broom and duster. The ELECTRIC IRON with it's steady, even heat has made ironing quicker and easier to countless thousands of Carried William Street women.

These and other wonderful LABOR-SAVERS are at your instant command if your home is wired for ELECTRICITY.

We will wire for five outlets, including drop cords complete with 25 watt or 50 watt Mazda Lamps, for

December 1921 Car and Truck Sales 50,203

December 1922 Car and Truck Sales 105,799

Everything Points to the Greatest Spring Demand for Ford Products in Company's History

1,202,517 Ford Cars and Trucks were delivered to retail purchasers in the United States alone during 1922—

Actual deliveries for last month greatly exceeded any previous December in the history of the Ford Motor Company--

It was the ninth consecutive month in which more than 100,000 Ford Cars and Trucks were retailed—keeping the Ford Plants working at capacity to meet dealers' requirements-

In many parts of the country dealers are already finding it necessary

to specify later delivery dates on certain types because there are no reserve stocks to draw from-

Commercial users, business houses and farmers, anticipating their future requirements, are placing orders and taking delivery of Ford Cars, Trucks and Fordson Tractors to insure against delay.

Everything points to the biggest shortage of Ford Products this Spring that has ever existed—

The only way you can be sure of obtaining delivery of a Ford Car. Truck or Fordson Tractor is to list your order immediately--

We have given you these facts as they actually exist so that if you are planning to purchase a Ford Car, Truck or Tractor for use this Spring or Summer, you can list your order now and take advantage of our dealer's first opportunity to make delivery.

Here's a PRESCRIPTION Safe & Siene for Young & Old

"Where is My Daughter?" "Whore is My Daughter?"
"Why can't we stay on for another week, Billy?" said Almee, leaning a little farther out of the study window, daster in hand. "Go to Aunt—the Missus, I near—and ask her to let you keep the job. She'll jump at it."
"Nothing doing!" said Billy sternly, Aimee sighed. The hour was nearly noon on the day following the Odyssey.

oon on the day following the Odyssey of the crap pils. No nows had been heard of Calamity Knte, who appeared to have drifted out of history on the Sphinx. A brief interval of peace had spilled supplements. rottled upon Jeryanix.

"There'll be a gueancy for a parlor-maid an' chauffeur," announced Billy with decision. He was standing on the gravel just outside the window. "All the bother with the police is wiped off the sinte. It's only a fool that backs his luck too far. And it's time to quit the game and turn the lights out."
"That means Aunt l-as got to know

who I am, and who Georgie is; andand all the rest of it."
"There's no way out of that, I'm
afraid."

"I know. But I do rether funk it, Billy. The worst it it is poor old Georgie is in a tighter place than I

am."
"Wo'll have to see her through it."
"Dou't you think." said Aimee, distinctly worried, "that it would be heat
if Georgian arranged to cut short har visit and went home—and Amy Sacoks gave notice, or just cleared out. You as well. Then we—we could explain it all by letter, or something. I think it would look better that way."

Billy looked at her a little oddly. "I am in a funk, Blily," said Almee, trembling slightly. "I don't care for myself, but it's awful to think of poor leorgie having the storm break on her She lea't built for it. I believe it the thing lan't spring on us suddenly, and we manage it at the right time, wewe might get away with it."

"Right usaln," said Billy, "but I shan't go. I shall stay and put it through myself."
"No" and Almee quickly. "I won't

You fust leave it to me," said Billy. soothingly, "there's another way. I'll show you."

whire of a motor interrupted bin. A large automobile was approaching up the park road. Almee looked at it. Such an expression of horror came over her features that Billy was startled. What's the matter?

"It's Dad !"

Aimee dived back into the room like Almos dived back into the room like a rabbit retreating into its burrow.
The automobile swept up to the main entrance; the Very Reverend Lord Scroope descended.
The Lady Erythea in? he said, al-

most curtly, to the butler. "Annouse me at once, please. Lord Scroope."

Mr. Tarbeaux showed bim into the ompty drawing room. Lord Scroope deposited his list among a cluster of n ornaments. His brow, usually white and screne as alabaster, was clouded. Lady Erythea entered ma-

Beroone. The two regarded each other

"I do not understand you," said Lady Erythen with frigidity, "Alexander is a young man of unexceptionable character and prospects. Jervanix will be his. The Scroope estate is entailed, and I am sufficiently an falt with your af-fairs to know that when your two sons in the Service are provided for there will be no everpowering fortune left for Aimee. It appears that if there is any complaint, it should come from

"Are you in your senses. Ecythea? This is my nice by marriage—Georgian Bernets. What is she doing here?"
"Y-yea," gulped Alexander? finnees.
"I'm Georgina. I couldn't help it."
She collapsed late an acceptain and burst for cours. Alexander street and "The financial aspect of the question does not weigh with me," said Lord Scroops with asperity. "I object to the match itself. If Alexander is to

marry at all—"].
"If he is to marry!" Interrupted Lady
Brythea warmly. "Of course he is to
maurr. Though I confess I was very
much afraid he never would. Formit se to tell you, Anthony, that in taking up this attitude as to the marriage of priests, you stand on a very shaky foundation. You yourself are a Clerk foundation. You yourself are a Clerk to Scroops manny in Orders, and an extreme Ritualist. Smitten with insanity. Small I remind you that if you had not married Delicia—and an excellent thing it was for you—this situation would never have arisen!"

"The dishered next."

"I am not conscious of having ex-pressed any such argument," said Lord Scroops very stiffly, but with a certain pinkness about the ears. "As for Alexander, he is in every way an excellent young man. But if he is to marry, the last thing I should have desired is his alliance with my daughter. Their temperaments are so opposed that I am convinced nothing her wheestern perquents are so opposed that I am convinced nothing but unhappiness could result—in fact, your nows seemed to me almost incredible. I do not know what to do—it's position is very difficult for the, if the child has really become attached to him." concluded Lord. come attached to him," concluded Lord

Scroope, with visible distress. "Good gracious, man, what did you expect?" excluined his sister-in-law. "It gover entered my head," said Lord Scroope, emphatically, "I thought that your influence, and that of Alexander, would have a steadying effect on Aimee, who was in some need of it. But this—!"

Ludy Brythen showed increasing ex-

asperation.

"You are falleing rabbish!" she exclaimed, sharply, "Of all the girls known to me, no more suitable mate known to me, no more suitable mate. known to me, no more suitable mate could be found for Alexander. Indeed, during her sojourn here Aimee has endeared herseit to me scarcely less than to him. Her ploty, her quiet devotionable complete absence in her of all slanginess all these speak eloquently in her favor,"

Lord Scroope gared at her in hewil-

"I really do not follow you, Erythea. And I sm grostly disappointed," said Lord Surpope heavily, "groutly disap-pointed. I did not yersee this."

ponned. I did not foresee this.

"I am not responsible, my dear Authony, for your lack of toredight," said his sister-in-law, acidly. A shadow darkened the window, and she turned. "But your daughter can answer for her-

Georgian stepped in through the open window, followed by Mr. Lambe, Suddenly observing Lord Scroops she inited and became rigid. Every scrap of color left har cheeks. Alexander halted also, and slowly furned a deep

"Since it in a fait Lady Erythen to her brother-in-law, almost with a touch of pleading, "he amisble, Anthony, and bestow your blessing on the happy pair."

She raised her cur-trumpet as though to share in the benediction. Lord Scroope looked at Georgina dumbly and then stared at Lady Enythers.
"What did you say?" he asked diz-

elly.
"The happy pair?" said In & Bry.
